P.C. No. 722.

CERTIFIED TO BE A TRUE COPY OF A MEETING OF A
MEETING OF THE COMMITTEE OF THE PRIVY
COUNCIL, APPROVED BY THE DEPUTY OF HIS
EXCELLENCY THE GOVERNOR-GENERAL, ON THE
3RD, 1930.

THE Committee of the Privy Council have had before them a report, dated 19th March, 1930, from the Minister of the Interior, submitting that by Order in Council of the 18th June, 1925, the Abernethy-Lougheed Logging Company, Limited, which is conducting extensive timber operations in the vicinity of Stave Lake in the Railway Belt, in the Province of British Columbia, was granted permission to export certain cedar logs for a period of six months; that owing to the congested state of the cedar market several extensions of time have been granted by Orders in Council to the aforementioned Company to continue exporting, the last extension having been authorized by Order in Council dated 21st August, 1929, for a period of six months from the 22nd July, 1929, and whereby the material exported was subject to the payment of dues at \$3 per thousand feet, B.M., on logs grading No. 1; \$2.50 per thousand feet, B.M., on logs grading No. 2; and \$2 per thousand feet, B.M., on logs grading No. 3, which dues are in excess of those charged under the Regulations governing the disposal of timber cut from licensed berths on Dominion lands.

The Minister states that this export privilege has worked out to the satisfaction of the local timber merchants as it enables a large quantity of low-grade cedar to be taken from the booms which is not in demand locally, and such action not only encourages the logging of a good deal of timber that would otherwise be unmerchantable but at the same time provides considerable employment for settlers and bushmen in the vicinity.

The Company has applied for a renewal of the permit stating that it is the intention to use the same for the export of low-grade cedar logs to the Japanese market only and thereby find a sale for a class of material which it is impossible to dispose of to the domestic trade.

The Minister, therefore, believing it to be in the public interest, recommends that a further extension of six months from the 22nd January, 1930, be granted the Company to export cedar logs subject to the payment of dues as authorized by Order in Council of the 21st August, 1929, the operations to be subject to such conditions as he may determine and the mills in the district to be first given an opportunity of acquiring any portion of the cut that may be required for manufacturing locally.

The Committee concur in the foregoing recommendation and submit the same for approval.

(Signed) E. J. LEMAIRE,
Clerk of the Privy Council.

The Minister of the Interior. 460-ap17

ATTORNEY-GENERAL.

"MOTOR-VEHICLE ACT."

HIS HONOUR the Administrator in Council has been pleased to order that the regulations made pursuant to the provisions of the "Motor-vehicle Act" on the 26th day of May, 1927, and published in the Gazette of that date at pages 1759 to 1768, be amended as follows:—

Regulation No. 3.—Strike out clauses (b), (c), (d), and (e), with all amendments made thereto and the subheadings preceding the same respectively, and substitute therefor the following clauses and subheadings:—

"LIGHTS.

"(b.) The motor-vehicle shall be equipped with head-lights and a tail-light as prescribed in these regulations of sufficient power and so adjusted and operated as to enable the person driving the motor-vehicle to proceed with safety to himself and to other users of the highway under all ordinary conditions of highway and weather:

"HEAD-LIGHTS.

"(c.) Every motor-vehicle other than a motor-cycle shall be equipped with not less nor more than two head-lights, so constructed and adjusted as to produce light of equal candle-power, mounted one on each side at the front end of the motor-vehicle. Every motor-cycle shall be equipped with not less than one nor more than two head-lights mounted at the front thereof. No head-light shall be mounted higher than fifty inches or lower than twenty-four inches above a level plane on which the motor-vehicle stands. No head-light shall be equipped with a light-bulb producing light of more than thirty-two candle-power or less than twenty-one candle-power:

"The head-lights shall be so constructed, equipped, mounted, and adjusted that they will under normal atmospheric conditions and on a level, straight highway produce sufficient white or clear driving-light to render clearly discernible a substantial object on the highway two hundred feet ahead, but they shall not project a glaring or dazzling light to persons on the highway in front of them. Where none of the main bright portion of the beam of light from the head-lights rises above a horizontal plane passing through the centres of the head-lights parallel to a level plane on which the motor-vehicle stands when fully loaded and, in no case, rises higher than forty-two inches above such level plane seventy-five feet or more ahead of the motor-vehicle, those head-lights shall be deemed to comply sufficiently with the provisions of this regulation prohibiting the projection of a glaring or dazzling light:

"During the period from one-half hour after sunset to one-half hour before sunrise, and at any other time when there is not sufficient light to render clearly dis-

cernible a substantial object on the highway at a distance of two hundred feet, the head-lights shall be kept lighted whenever the motor-vehicle is in motion on any highway:

"In case the highway where a motor-vehicle is being driven or operated is sufficiently lighted, whether artificially or otherwise, to render clearly discernible a substantial object on the highway at a distance of two hundred feet, the mere fact that the head-lights of the motor-vehicle are dimmed or that the beam of light therefrom is deflected or tilted downward shall not constitute a violation of the provisions of this clause if the head-lights are otherwise constructed and adjusted in accordance with those provisions. Where in meeting and passing another vehicle on the highway the head-lights of a motor-vehicle are temporarily dimmed or the beam of light therefrom is temporarily deflected or tilted downward by the driver of the motor-vehicle for the comfort or safety of other persons using the highway, the mere fact that the head-lights are so dimmed or the beam of light is so deflected or tilted shall not constitute a violation of the provisions of this clause if the head-lights are otherwise constructed in accordance with those provisions, and if the head-lights when so dimmed, or with the beam of light so deflected or tilted, are adequate under normal atmospheric conditions and on a level, straight highway to produce sufficient light to render clearly discernible a substantial object on the highway seventy-five feet ahead:

"TAIL-LIGHTS.

- "(d.) Every motor-vehicle other than a motor-cycle and every trailer shall be equipped with a light mounted on the back thereof capable of displaying a red light plainly visible under normal atmospheric conditions from a distance of five hundred feet to the rear of the motor-vehicle or trailer, and the same light or an additional light capable of conspicuously illuminating with white light the rear number-plate on the motor-vehicle or trailer so as to render the numerals thereon visible from a distance of at least fifty feet to the rear of the motor-vehicle or trailer, and such light or lights shall be kept lighted during the period from one-half hour after sunset to one-half hour before sunrise and at any other time when there is not sufficient light to render clearly discernible a substantial object on the highway at a distance of two hundred feet:

"Where there is attached to a motor-vehicle for the purpose of being drawn by it any implement of husbandry or any vehicle used exclusively for touring purposes and only to convey camping equipment, the implement or vehicle so attached shall be equipped with a light mounted on the back thereof capable of displaying a red light plainly visible under normal atmospheric conditions from a distance of five hundred feet to the rear of the implement or vehicle, which light shall be kept lighted during the period from one-half hour after sunset to one-half hour before sunrise and at any other time when there is not sufficient light to render clearly discernible a substantial object on the highway at a distance of two hundred feet:

"Every motor-cycle shall be equipped with a reflector or light mounted on the rear thereof capable of reflecting or displaying a red light towards the rear, and if equipped with a light such light shall be kept lighted during the period from one-half hour after sunset to one-half hour before sunrise and at any other time when there is not sufficient light to render clearly discernible a substantial object on the

highway at a distance of two hundred feet:

"No tail-light shall be equipped with a light-bulb producing light of more than four candle-power or less than two candle-power. No red light shall be carried or displayed upon any motor-vehicle other than a motor-vehicle operated by a fire department, or upon any trailer, implement, or vehicle drawn by a motor-vehicle in such a manner as to be visible from the direction in which the motor-vehicle is proceeding:

"CLEARING-LIGHTS.

- "(c.) Every motor-vehicle having a width, including the load thereon, in excess of eighty inches at any part shall carry two clearance-lights on the extreme left side of the motor-vehicle or load, one located at the front and displaying a white or green light visible under normal atmospheric conditions from a distance of five hundred feet to the front of the motor-vehicle, and the other located at the rear of the motor-vehicle and displaying a red light visible under normal atmospheric conditions from a distance of five hundred feet to the rear of the motor-vehicle. During the period from one-half hour after sunset to one-half hour before sunrise, and at any other time when there is not sufficient light to render clearly discernible a substantial object on the highway at a distance of two hundred feet, the clearance-lights shall be kept lighted whenever the motor-vehicle is on the travelled portion of any highway. No clearance-light shall be equipped with a light-bulb producing light of more than four candle-power or less than two candle-power:

"ADDITIONAL PERMISSIBLE LIGHTS.

- "(ec.) *Spot-light*.—Any motor-vehicle may be equipped with not more than one spot-light other than a fog-light. The beam of light from the spot-light when the motor-vehicle is in motion shall at all times be directed to the right of the medial length line of the motor-vehicle, and so that the main bright portion of the beam of light shall strike the ground on the right-hand side of the motor-vehicle at a distance not exceeding one hundred feet in front of the motor-vehicle. No spot-light shall be mounted lower than twenty-four inches nor higher than seventy-two inches above a level plane on which the motor-vehicle stands. No spot-light shall be equipped with a light-bulb producing light of more than thirty-two candle-power:

"*Fog-light*.—Any motor-vehicle other than a motor-cycle may be equipped with not more than one fog-light, that is to say, a spot-light fixed to the front of the motor-vehicle not higher than thirty-six inches nor lower than eighteen inches above a level plane upon which the motor-vehicle stands, and which light is so fixed that the beam of light therefrom shall at all times be directed to the right of the medial length line of the motor-vehicle and shall strike the ground on the right-hand side of the motor-vehicle at a distance not exceeding one hundred feet in front of the motor-vehicle. No fog-light shall be equipped with a light-bulb producing light of more than thirty-two candle-power:

"*Auxiliary Driving-light*.—Any motor-vehicle other than a motor-cycle may be equipped with not more than one auxiliary driving-light, which shall be of a make or design approved by the Superintendent, and shall be mounted on the front thereof not higher than the centre of the head-lights on the motor-vehicle nor lower than eighteen inches above the level plane on which the motor-vehicle stands. The aux-

iliary driving-light shall not project a glaring or dazzling light to persons on the highway in front of it. Where none of the main bright portion of the beam of light from the auxiliary driving-light rises above a horizontal plane passing through the centre of the auxiliary driving-light parallel to the level plane on which the motor-vehicle stands when fully loaded and, in no case, rises higher than forty-two inches above such level plane seventy-five feet or more ahead of the motor-vehicle, that auxiliary driving-light shall be deemed to comply sufficiently with the provisions of this regulation prohibiting the projection of a glaring or dazzling light:

"Where a motor-vehicle is equipped with a spot-light, fog-light, and an auxiliary driving-light, or with any two of them, only one of them shall be kept lighted at a time."

Regulation No. 3, clause (h).—Strike out clause (h), and substitute therefor the following clause:—

"(h.) Every motor-vehicle propelled by an internal-combustion engine shall be equipped with an exhaust muffler consisting of a series of pipes or chambers so proportioned and constructed as to allow the exhaust gases from the engine to expand and cool to a degree of noiseless expulsion, and the muffler shall not be cut out or disconnected while the motor-vehicle is in operation on any highway."

His Honour has further been pleased to order that the following additional regulations be made pursuant to the provisions of the "Motor-vehicle Act":—

1. No person who is engaged in the business of selling motor-vehicles shall keep for sale, or sell, or offer for sale any new or used motor-vehicle unless the head-lights, tail-light, and brakes with which the motor-vehicle is equipped comply in all respects with the requirements of the regulations made under the "Motor-vehicle Act."

2. No person shall keep for sale, or sell, or offer to sell any lamp-bulb designed or intended for use on or as part of the equipment of a motor-vehicle which is in excess of thirty-two candle-power.

3. No person carrying on the business of letting motor-vehicles for hire without drivers shall let any passenger motor-vehicle for hire without a driver unless it is equipped with an automatic speed-control or governor, of a design approved by the Superintendent, which will prevent the motor-vehicle from being driven or operated at a greater rate of speed than thirty-five miles per hour; nor shall any person drive or operate any motor-vehicle which is let for hire in contravention of this regulation. After adjustment, the speed-control or governor shall be locked or sealed by the person letting the motor-vehicle for hire for the purpose of preventing any unauthorized person from tampering with its adjustment; and no person other than the person letting the motor-vehicle for hire shall alter the adjustment of the speed-control or governor with which the motor-vehicle is equipped, or in any way unfasten or tamper with its lock or seal. The owner and every person in charge of a passenger motor-vehicle kept for letting or let for hire without a driver shall, upon the request of any officer or constable of the Provincial Police, or of the police force of any municipality, forthwith permit the officer or constable to inspect the motor-vehicle, and to test the adjustment and efficiency of any speed-control or governor with which it is equipped.

4. Every motor-vehicle operated by or on behalf of any person in carrying on upon a highway the business of a public carrier of passengers shall be equipped with a speedometer or device which indicates accurately the speed at which the motor-vehicle is driven or operated.

5. The owner and every person in charge of a motor-vehicle driven or operated or about to be driven or operated on any highway shall, upon the request of any officer or constable of the Provincial Police, or of the police force of any municipality,

forthwith take the motor-vehicle to a place designated by the officer or constable, and shall submit the same there for the inspection and testing of the lights with which the motor-vehicle is equipped.

6. Where any officer or constable of the Provincial Police or of the police force of any municipality is satisfied, either from an inspection of a motor-vehicle on the highway or at a testing-station, that the lights with which the motor-vehicle is equipped are in need of adjustment, he may deliver to the person in charge of the motor-vehicle a notice in writing requiring him to cause the lights or any of them to be adjusted, and proof of the satisfactory adjustment thereof in compliance with the regulations to be furnished to the officer or constable within forty-eight hours after the delivery of the notice. Proof of satisfactory adjustment for the purposes of this regulation may be furnished by a certificate of adjustment signed by the owner or manager of an adjusting-station approved by the Superintendent at which the lights have been adjusted, or by a certificate of an officer or constable of the Provincial Police to whom the motor-vehicle is submitted for testing after the lights have been adjusted. Upon proof to the satisfaction of the Superintendent that any garage or service-station is equipped with adequate facilities and a competent staff for the testing and adjustment of lights, he may, without the payment of any fee, issue to the owner or manager thereof an approval in writing constituting that garage or service-station an approved adjusting-station for lights for the purposes of this regulation; and the Superintendent may at any time, in his discretion, revoke and cancel any approval so given. As a condition of his approval of adjusting-stations the Superintendent may fix a maximum fee or charge which shall be observed in respect of the adjustments of lights and the furnishing of certificates of adjustment.

 (Clear explanation of these symbols shall be shown in the schedule);
- (c.) - (d.) After the expiration of the time required for the notice, the toll-schedule shall be considered in full force and effect, unless ordered to be withdrawn, modified, or suspended;
- (e.) Either of his own motion or on the filing of a protest by any person affected, the Minister may, in his discretion, order any toll-schedule to be withdrawn, modified, or suspended.

REGULATION No. 7: TOLLS TO BE OBSERVED.

No licensee shall charge, demand, collect, or receive a greater, less, or different compensation for the transportation of passengers or freight, or for any service in connection therewith, than the rates, fares, and charges applicable as specified in his schedules of tolls filed and in effect at the time, nor shall any licensee refund or remit in any manner or by device any portion of the rates, fares, or charges so specified, nor extend to any person

any privilege or facility in the transportation of passengers or freight except such as are regularly and uniformly extended to all persons. No licensee shall directly or indirectly carry any freight free, or issue, give, tender, or honour any free ticket, or free pass except to his officers, agents, employees, or for charitable or patriotic purposes.

(3.) In individual cases, where representation is first made, any person holding a licence authorizing a public freight-vehicle service, where no passenger service whatever is rendered in connection therewith, shall be relieved of the necessity of complying with the provisions of this regulation, relating to actual time of arrival and departure from and at all termini and actual time of departure from all intermediate points. Time and route schedules shall, however, show approximately the amount of service to be rendered, route traversed and mileage between points, as required by these regulations.

(4.) At least one copy of each time-schedule shall be posted in a conspicuous place, easily accessible for public inspection, at each station or regular stopping-place on the route, and a copy shall be in the possession of each chauffeur employed by the licensee.

(5.) Time-schedules as filed with the Minister and posted for the information of the public shall be adhered to in the operation of public vehicles to which they relate.

(6.) Changes in time-schedules affecting the time of arrival or departure of any public passenger-vehicle at or from any station or stopping-place on its route, or which will effect a reduction in the number of vehicles operating over any route, or which will effect a reduction in the amount of public passenger-vehicle service rendered at any terminus, station, or intermediate stop, shall be made as follows:—

- (a.) A new time-schedule shall be issued and shall show a reference to the schedule cancelled thereby as follows:—
 "Time-schedule No. cancels
 Time-schedule No.";
- (b.) Three copies of the time-schedule shall be filed with the Minister, and notice shall be given to the public by posting a copy in a conspicuous place at each terminus, station, or stopping-place affected, at least fifteen days before the effective date thereof;
- (c.) After such fifteen days the time-schedule shall be considered in full force and effect, unless ordered withdrawn, modified, or suspended;

REGULATION No. 9: INTERRUPTIONS OR DISCONTINUANCE OF SERVICE.

(1.) Every interruption of regular public vehicle service, where the interruption is likely to continue for more than twenty-four hours, shall be promptly reported in writing to the Minister, and to the public along the route, with a full statement of the cause of the interruption and its probable duration.

(2.) Discontinuance of service for a period of five consecutive days without notice to the Minister

shall be deemed *ipso facto* a forfeiture of all rights secured under and by virtue of any licence to operate issued by the Minister; but the Minister may permit the resumption of operation after such five-day discontinuance, on satisfactory evidence that the licensee was not responsible for the failure to give service.

(3.) No licensee shall discontinue the service called for under the licence and the time-schedules filed thereunder without first having given to the Minister and to the public at least fifteen days' notice in writing of the intention to discontinue such service, and having secured from the Minister written permission to discontinue the service.

REGULATION No. 10: SECURITY.

(1.) The security deposited by the applicant for a licence, pursuant to section 69 of the "Highway Act," shall provide for the payment of damages or compensation in the respective sums following in respect of personal injury sustained during the term of the licence by the operation of each public vehicle thereunder, namely:—

but the Lieutenant-Governor in Council by Order in any special case may, in substitution for the limits prescribed in the foregoing clauses, fix other limits applicable to that case, whether the same be greater or less than the limits so prescribed.

(2.) Where the bond or policy which constitutes the security in any case is filed with any public authority, and is otherwise satisfactory to the Minister, the Minister may accept the deposit of a certified copy of the bond or policy in lieu of the deposit of the original.

(3.) Failure of the licensee in any respect to maintain security to the full amount prescribed by or under the said Act and these regulations shall constitute sufficient cause for the suspension or revocation of the licence.

In case a public passenger-vehicle is stopped pursuant to this regulation or by reason of accident, disablement, or break-down is unable to proceed, the licensee shall make immediate arrangements so that the passengers which are being carried by the public passenger-vehicle can be transported to their destination with as little delay as possible. When any public passenger-vehicle becomes temporarily disabled so that it cannot be used, arrangements may be made for substituting such equipment as is necessary in order to maintain a satisfactory schedule of service. If the temporary substitution of equipment will be required for a longer period than forty-eight hours, the Minister or some person authorized by him in writing to receive notices under this regulation shall be notified of the substitution and shall have the right to make any order deemed necessary under the conditions.

REGULATION No. 28.
